## Inspiration for the Week

by Rev. Mark Suslenko

**God shows up in unexpected ways!** Just when we think we have God's agenda figured out, another surprise comes. Expecting to find God only in some places hinders us from seeing him everywhere. Who would have thought that a young boy's few loaves and fishes would feed thousands of people? The disciples were probably just as amazed as everyone else when this feast appeared before them. Sometimes, we find it difficult to believe that God can do amazing things with something small and simple. Yet, grasping this truth is really at the heart of understanding the power of the Eucharist. Having the Body and Blood of Christ made present for us is one amazing wonder. Being fed and nourished by that gift is another. Now, being able to become what we have eaten, God can do tremendous things with the simple, humble gifts of our lives. All we must do is realize that God dwells within us. By doing so, everyone we encounter and everything we do has the power to become a sacramental moment. When done with great love, even the smallest gesture can be multiplied exponentially. Now, that's amazing!

## Faith Formation Registration Continues Through Aug. 16

## CATHOLIC TRIVIA – JUST FOR FUN

**Question:** What does the word "Messiah" mean in English?

*Answer on page 5*

St. Oscar Romero said, "We cannot do everything, and there is a sense of liberation in realizing that. This enables us to do something and to do it very

well. It may be incomplete, but it is the beginning, a step along the way, an opportunity for the Lord's grace to enter and do the rest."

There was a group of ladies many years ago who made quilts. They were beautiful creations reflecting the inspirational designs artfully composed from simple scraps of fabric each woman would bring to their individual pieces. There was no plan for the finished project, as each finished work became the combined creation of what each contributed. They abounded in vibrant colors and dazzled the beholder with intricate patterns and their myriad textures. They were so beautiful that they became coveted family treasures passed from generation to generation. Those women never realized the power of their work. Countless babies rested in the comfort of those quilts, warmly nestled in the legacy of tradition they were fortunate to inherit. They

adorned innumerable homes with their beauty and brought joy and solace to many faces.

We cannot do everything. We are not meant to. Our work in life is to contribute our individual piece, which reflects the unique thumbprint I claim as my own. We must do small things well. Then, as St. Oscar Romero reminds us, the Lord's grace will enter and do the rest. We must trust that this is true, just as those women trusted in their final work's eventual beauty and purpose.

Eucharistic blessings start small and multiply. We all come to life with only a few loaves of bread and a few fish. Not any single one of us has all that it takes for God to transform our world. But we can all help some. Who knows what God will do with the little we have and how many will benefit from our kindness, compassion, wisdom, courage, conviction, love, warmth, zeal, faith, and hope? That young lad never dreamed that his few leftovers would do all they did. God shows up in unexpected ways! Where would life's adventure and fun be if it were any other way? Being able to be part of bringing God's creative, transforming, healing Presence to the world opens us up to wonder, awe, and excitement! We can all bring our little pieces to the bigger work of God that can result in being a coveted jewel passed from generation to generation. This is good news indeed! Bread and wine transformed into Christ's Body and Blood. We become what we eat. Trust that.

~ Rev. Mark Suslenko

## This Day in History - Bubble Gum Invented

**Walter E. Diemer** (Jan. 8, 1904 – Jan. 8, 1998) American accountant, invented bubble gum in the summer of 1928.

Although an accountant by trade, Diemer liked to experiment with gum recipes accidentally stumbling upon a unique recipe. The gum was pink because it was the only food coloring in the factory, the reason why most bubble gum today is pink.

Compared to standard chewing gum, the gum was less sticky, would not stick to the face, and yet stretched more easily. Diemer saw the possibilities, wrapped one hundred pieces to test market in a local candy store. Priced at one penny a piece, the gum sold out in one day.

The new gum was named "Dubble Bubble" and Diemer himself taught salesmen how to blow bubbles as a selling point. Sales of Dubble Bubble surpassed US \$1.5 million in the first year. Diemer did not patent his invention and competition soon arose as bubble gum became a popular and inexpensive treat during the Great Depression.
